1988–89 Salary Schedules for Maryland Public School System Professionals

Maryland State Department of Education
200 West Baltimore Street
Baltimore, Md 21201

OMS 04110 (R) 11/88

Introduction

Funding the 24 school systems in Maryland is the joint responsibility of the state and the 24 local governments to which the school systems are dependent. Due to significant differences in wealth, size, philosophy, and urbanicity, salaries for comparable positions reveal wide variation. On the whole, Maryland teachers are among the highest compensated teachers in the nation, as evidenced by the National Education Association ranking of 8th in average salary for 1986-87.

Recent years have born witness to an increase in public support for education. Recognition of the need to increase teachers' pay has resulted in an average increase of over 31% in the starting salary for teachers from the fall of 1985 to the fall of 1988. This increase has rippled through the scales and provided experienced teachers with increased pay, thereby restoring to them some of the purchasing power that was lost over the last decade.

As a condition of employment, teachers and administrators must obtain valid certification from the State Superintendent of Schools. In addition to meeting minimum educational requirements, teaching applicants must pass several tests in the National Teacher Examination (NTE) series to qualify for a Standard Professional Certificate. An Advanced Professional Certificate is available after 3 years of successful teaching experience for teachers who have met minimum educational requirements.

The following tables were approved for public release by the local boards of education.

SALARY SCHEDULES OF PROFESSIONAL PERSONNEL: MARYLAND PUBLIC SCHOOLS

1988 - 89

TABLE	TITLE
1	Maximum Salaries for Professional Positions in Maryland Public School Systems
2	Salary Range for Teachers in Maryland Public School Systems
3	Salary Schedules for Maryland Public School Teachers with a Bachelor's Degree
4	Salary Schedules for Maryland Public School Teachers with a Master's Degree
5	Basis of 1988-89 Salaries for Principals in Maryland Public School Systems
6	Basis of 1988-89 Salaries for Vice Principals in Maryland Public School Systems
7	Basis of 1988-89 Salaries for Instructional Supervisors in Maryland Public School Systems

Table 5

Basis of 1988-89 Salaries for Principals in Maryland Public School Systems

Local Unit	Salary Minimum	 Maximum	* * * * * * * * Salary Determinants * * * * * * * * *
Allegany	$36,450 -	$51,045	Base salary determined by level of education, school size, and length of contract, with longevity after 20 and 25 years of experience
Anne Arundel	38,088 -	63,689	Base salary determined by level of school/size plus longevity
Baltimore City	N/A -	N/A	
Baltimore	36,585 -	62,237	Twelve month teacher salary plus 6 step responsibility factors ranging from $4,045-$8,217, depending upon school size
Calvert	33,039 -	61,739	Base salary determined by degree type and years of experience multiplied by factor of 1.35-1.5 depending on school size
Caroline	37,577 -	53,379	Base salary determined by years of experience and level of education multiplied by factors of 1.35-1.45
Carroll	34,585 -	61,476	Salary schedule based on size of school plus differentials for advanced preparation and longevity
Cecil	31,706 -	55,025	Salary schedule based on size of school plus differentials for advanced preparation and longevity
Charles	37,967 -	51,476	Base salary times factor of 1.42-1.76 determined by size of school, years of experience and school level, plus differentials for advanced preparation and longevity
Dorchester	38,280 -	50,868	Base salary times factor of 1.1-1.16 determined by size of school, plus differentials for years of experience and advanced preparation
Frederick	34,187 -	58,274	Salary schedule based on school level
Garrett	29,564 -	52,935	Salary schedule based on length of contract and school size plus differentials for advanced preparation and longevity
Harford	32,545 -	55,368	Teacher salary times 1.2 plus differentials of $2,241-$7.92 based on school size/level
Howard	35,863 -	66,271	Teacher (MA) salary schedule times factor of 1.35-1.50 plus differentials for advanced preparation
Kent	36,529 -	54,231	Salary schedule based on school size/level plus differentials for advanced preparation

NOTE: Salaries shown are for 10-month positions.

Table 5 (cont.)

Basis of 1988-89 Salaries for Principals in Maryland Public School Systems

	Salary		
Local Unit	Minimum	Maximum	* * * * * * * * Salary Determinants * * * * * * * * *
Montgomery	53,745 -	71,737	Salary schedule based on school type/level
Prince George's	36,427 -	65,815	Salary determined by level of education and size of staff
Queen Anne's	45,625 -	58,205	Base salary times factor of 1.25 to 1.47 based on school size and years of experience
St. Mary's	33,302 -	57,890	Salary schedule based on school level plus differentials for advanced preparation and longevity
Somerset	25,674 -	41,325	Teacher salary times factor of 1.1-1.2 determined by school level plus differentials of $2,175-$4,525 depending on size of school
Talbot	35,732 -	48,296	Salary schedule based on school assignment plus increments for advanced preparation
Washington	38,930 -	51,533	Salary schedule based on school assignment plus differentials for advanced preparation
Wicomico	40,800 -	53,050	Salary schedule based on size of school
Worcester	28,665 -	54,887	Teachers salary equated to 12 months times factor of 1.11-1.23 based on school size/level plus longevity

NOTE: Salaries shown are for 12-month positions

Table 6

Basis of 1988-89 Salaries for Vice Principals in Maryland Public School Systems

Local Unit	Salary Minimum	Salary Maximum	Salary Determinants
Allegany	$28,214 -	$41,080	Base salary determined by level of education and school size/level, plus longevity
Anne Arundel	34,342 -	54,635	Base salary determined by school/size plus longevity
Baltimore City	N/A -	N/A	
Baltimore	33,137 -	58,345	Twelve month teacher salary plus 6 step responsibility factors ranging from $2,057-$4,325, depending upon school type
Calvert	29,612 -	55,565	Base salary determined by degree type and years of experience multiplied by factor of 1.21-1.35, depending on school level
Caroline	34,794 -	47,306	Base salary determined by years of experience and level of education multiplied by factors of 1.15-1.25
Carroll	32,837 -	54,327	Salary schedule plus differential for advanced preparation and longevity
Cecil	28,117 -	47,846	Salary schedule based on school level and months of employment plus differentials for advanced preparation and longevity
Charles	30,178 -	39,648	Base salary times factor of 1.15-1.35 determined by school level and months of contracts, adjusted to years of experience plus differentials for advanced preparation and longevity
Dorchester	31,588 -	48,584	Base salary times factor of 1.08 plus differential for school level
Frederick	31,385 -	51,255	Salary schedule based on school level
Garrett	29,564 -	40,342	Salary based on length of service as administrator plus differentials for advanced preparation and longevity
Harford	29,580 -	51,262	Teacher salary times 1.2 plus differentials of $1,867-$2,986 determined by teaching responsibilities and school level
Howard	28,159 -	58,570	Teacher (MA) salary schedule times factor of 1.06-1.32 determined by months of contracts and school
Kent	33,464 -	44,821	Salary schedule based on school type plus differentials for advanced preparation

Table 6 (cont.)

Basis of 1988-89 Salaries for Vice Principals in Maryland Public School Systems

Local Unit	Salary Minimum	Salary Maximum	* * * * * * * * Salary Determinants * * * * * * * * *
Montgomery	46,818 -	58,387	Salary schedule based on type of school/school level
Prince George's	32,549 -	56,100	Eleven or twelve month teacher salary plus differentials
Queen Anne's	36,500 -	47,255	Base salary times factor of 1.00-1.17 based on classification
St. Mary's	28,726 -	47,901	Salary schedule based on school level plus differentials for advanced preparation and longevity
Somerset	25,139 -	34,395	Teacher salary times factor of 1.1-1.2 depending on months of contract plus differentials of $1,640-$2,540 based on school size
Talbot	35,165 -	39,822	Salary schedule plus increments for advanced preparation
Washington	32,818 -	45,559	Salary schedule based on school level plus differentials for advanced preparation
Wicomico	35,300 -	43,000	Salary schedule based on months of contract
Worcester	26,536 -	48,376	Teacher salary times factor of 1.05-1.08 determined by months of contract

15	Expenditures for Replacement Equipment: Maryland Public Schools: 1987-88

INTRODUCTION

The Selected Financial Data series of releases is published annually by the Office of Management Information Systems of the Maryland State Department of Education. Part I contains information about sources of funds, Part 3 contains per pupil expenditures, Part 4 is an historical summary and Part 2 contains expenditure information. A related release entitled Federal Program Expenditures contains information about expenditures for federal programs. Information for these releases is provided in the Annual Financial Reports of the local education agencies (LEAs) of Maryland.

The attached tables display LEA expenditures according to categories defined by Maryland law. Additional information about functional instructional services are not shown here but are available upon request.

HISTORICAL CONTINUITY

Due to Maryland General Assembly decisions, federal legislation and accounting policy changes initiated by the AICPA and NCGA which impact annually upon the reporting requirements for the school systems, historical continuity in reporting becomes difficult. With this release we are breaking with tradition. Table 1 reports expenditures by category as they are reported in the Annual Financial Report with no adjustment. Tables 2-15 bear resemblance to earlier releases with these exceptions:

(1) Table 6, Student Transportation does not include the cost of replacement vehicles - see Table 15 for this information.

(2) Table 7, Maintenance of Plant, does not include a column to show replacement equipment. These expenditures are shown on columns 3-7, and 8-10 on Table 15.

Prior to 1983 salaries and wages for supervisors of Instruction and all those employed to enhance instructional programs for regular pupils were accounted for in the category of Instruction. Because those expenditures are now reported under the category of Administration, they have been separately identified in Table 5.

Expenditures for educating students with special needs were separated from expenditures for educating regular students in 1981 when Category 13, Special Education, was added. Therefore, when comparisons of expenditures for Instruction are made for years prior to 1981, it will be necessary to add Special Education expenditures to instructional expenditures.

Other minor reporting changes have occurred over the past several years. Briefly, expenditures for Student Body Activities, formerly a separate reporting category, are now included in the category of Instruction and are called Cocurricular Activities.

The category of Food Services, under which expenditures of local dollars for Food Service Supervisor and his/her staff are budgeted, now has only one object of expenditure-interfund transfers. All Food Service expenditures are reported in detail in the Food Service Fund and shown in Selected Financial Data, Part II, on Table 11.

It should be noted that many of the financial details which the LEA's report are not regularly included as a part of our annual public information releases. If you have specific needs for information not contained with Selected Financial Data, we would like to hear from you to determine if we can provide the specific information you desire. Questions regarding this information, may be addressed to Kathie Hiatt at 333-2664.

DEFINITIONS

Administration refers to an expenditure category for reporting the general regulation, direction, and control of an LEA or an instructional program. Activities in this category affect the LEA as a whole, not the administration of a single building or narrow phase of school activities and generally refer to LEA activities involving the formulation and execution of educational or financial policy.

Capital Outlay is an expenditure which results in the acquisition of a fixed asset or an addition to fixed assets.

Community Services are services other than those for public schools and adult education which are provided by the school or local unit for the community as a whole or some segment of the community; e.g., community recreation programs, civic activities, public libraries, programs of custody and care of children, nonpublic - nonhandicapped transportation, etc.

Debt Service refers to expenditures for the debt principal and interest, excluding principal and interest on current loans. Obligations incurred by the State of Maryland for construction of public schools are excluded.

Food Services are activities involved with the preparation and serving of regular and incidental meals, for school activities and the delivery of food.

Health Services are physical and mental health activities which provide pupils with appropriate medical, dental, and nurse services.

Instruction refers to activities dealing directly with the teaching of regular pupils either in the school classrooms or in any other location, including expenditure for cocurricular activities, the office of the principal, guidance and psychological services and school media service.

Maintenance of Plant refers to activities concerned with keeping the grounds, buildings and equipment in the original condition of efficiency or completeness either through repairs or replacement of property. Since expenditures for replacement equipment are a subobject within each category of expenditure, all replacement equipment has been removed from each category and reported within this category in Selected Financial Data.

Operation of Plant consists of keeping the physical plant open and ready for use, including cleaning, disinfecting, heating, moving furniture, caring for grounds, operating telephone switchboards, and other activities which are repeated regularly.

Special Education consists of activities designed for students who, through appropriate assessment, have been determined to have temporary or long-time special education needs arising from cognitive, emotional, and/or physical factors.

Student Personnel Services consists of attendance services, social work services or student account service which are designed to improve the student's attendance at school and prevent or solve student problems at home, the school, or in the community.

Student Transportation involves the conveyance of pupils to and from school activities as provided by state law, including trips between home and school or trips to school activities.

INTRODUCTION

This report presents the enrollment statistics by race/ethnic categories and the distribution of minority students in Maryland public school systems as of September 30, 1988.

During the past decade Maryland public school systems have experienced a dramatic increase in the enrollment of Asian and Hispanic students. Both groups have nearly doubled their enrollment since 1978. Asian student enrollment has increased from 11,482 in 1978 to 21,889 in 1988 while Hispanic enrollment has increased from 6,450 to 12,593 during the same period. Although Black enrollment has declined in the last decade just as overall public school enrollment has declined, Blacks still make up the largest minority group in Maryland's public schools (32.5%).

Table 1 in Section I presents the fall 1988 enrollment in each race/ethnic category by local education agency grouped by geographic regions of the state. Figure 1 presents the race/ethnic distribution of students as a percent of the total enrollment in 1988. Overall, minority students make up 37.7 percent of the total enrollment in Maryland's schools. Figure 2 presents the percent of minorities in each region of the state. The National Capital region, comprised of Prince George's and Montgomery counties, enrolls the largest percentage of minority students (53.1%).

Table 2 presents the enrollment trends at the state level for even years from 1978 through 1988. Figure 3 illustrates the growth in Asian and Hispanic enrollment during this period.

Section II presents the total enrollment, grade span and the number and percent of minority students in each school in Maryland. Less than 2% of the schools have no minority representation. The majority of these schools are in Garrett County where minorities make up less than 0.5% of the enrollment. Conversely, 29 schools (2.4%) have 100% minority representation and the majority of these schools are in Baltimore city where minorities make up over 80% of the enrollment. Table 3 is a summary of the number and percent of minority students at the elementary, secondary and middle school levels.

Introduction (cont.)

The data for this report were submitted by local education agencies in Maryland in response to a survey developed by the Office of Management Information Systems. Included in the report are students who are enrolled in regular and special programs in prekindergarten[1] through grade twelve, excluding evening high school. The race/ethnic categories correspond to those designated by the Office for Civil Rights and the Equal Employment Opportunity Commission on their school and staff surveys. For the purposes of this report, the term "minority" includes students reported as American Indian/Alaskan Native, Black, Hispanic and Asian.

Enrollment at vocational schools which provide programs to students from various high schools in the county are not included in this report. Those students are counted at their home-based school.

ACKNOWLEDGEMENTS

Bertha Gorham prepared this report with the assistance of Linda Baker, Amit Prakash and Lynn Williams of the Office of Management Information Systems.

---

[1] Prekindergarten enrollment is excluded in the following counties: Allegany, Caroline, Carroll and Charles.

INTRODUCTION

The Selected Financial Data series of releases is published annually by the Office of Management Information Systems of the Maryland State Department of Education. Part I contains information about sources of funds, Part 3 contains per pupil expenditures, Part 4 is an historical summary and Part 2 contains expenditure information. A related release entitled Federal Program Expenditures contains information about expenditures for federal programs. Information for these releases is provided in the Annual Financial Reports of the local education agencies (LEAs) of Maryland.

The attached tables display LEA expenditures according to categories defined by Maryland law. Additional information about functional instructional services are not shown here but are available upon request.

HISTORICAL CONTINUITY

Due to Maryland General Assembly decisions, federal legislation and accounting policy changes initiated by the AICPA and NCGA which impact annually upon the reporting requirements for the school systems, historical continuity in reporting becomes difficult. With this release we are breaking with tradition. Table 1 reports expenditures by category as they are reported in the Annual Financial Report with no adjustment. Tables 2-15 bear resemblance to earlier releases with these exceptions:

(1) Table 6, Student Transportation does not include the cost of replacement vehicles - see Table 15 for this information.

(2) Table 7, Maintenance of Plant, does not include a column to show replacement equipment. These expenditures are shown on columns 3-7, and 8-10 on Table 15.

Prior to 1983 salaries and wages for supervisors of Instruction and all those employed to enhance instructional programs for regular pupils were accounted for in the category of Instruction. Because those expenditures are now reported under the category of Administration, they have been separately identified in Table 5.

Expenditures for educating students with special needs were separated from expenditures for educating regular students in 1981 when Category 13, Special Education, was added. Therefore, when comparisons of expenditures for Instruction are made for years prior to 1981, it will be necessary to add Special Education expenditures to instructional expenditures.

Other minor reporting changes have occurred over the past several years. Briefly, expenditures for Student Body Activities, formerly a separate reporting category, are now included in the category of Instruction and are called Cocurricular Activities.

The category of Food Services, under which expenditures of local dollars for Food Service Supervisor and his/her staff are budgeted, now has only one object of expenditure-interfund transfers. All Food Service expenditures are reported in detail in the Food Service Fund and shown in Selected Financial Data, Part II, on Table 11.

It should be noted that many of the financial details which the LEA's report are not regularly included as a part of our annual public information releases. If you have specific needs for information not contained with Selected Financial Data, we would like to hear from you to determine if we can provide the specific information you desire. Questions regarding this information, may be addressed to Kathie Hiatt at 333-2664.

DEFINITIONS

Administration refers to an expenditure category for reporting the general regulation, direction, and control of an LEA or an instructional program. Activities in this category affect the LEA as a whole, not the administration of a single building or narrow phase of school activities and generally refer to LEA activities involving the formulation and execution of educational or financial policy.

Capital Outlay is an expenditure which results in the acquisition of a fixed asset or an addition to fixed assets.

Community Services are services other than those for public schools and adult education which are provided by the school or local unit for the community as a whole or some segment of the community; e.g., community recreation programs, civic activities, public libraries, programs of custody and care of children, nonpublic - nonhandicapped transportation, etc.

Debt Service refers to expenditures for the debt principal and interest, excluding principal and interest on current loans. Obligations incurred by the State of Maryland for construction of public schools are excluded.

Food Services are activities involved with the preparation and serving of regular and incidental meals, for school activities and the delivery of food.

Health Services are physical and mental health activities which provide pupils with appropriate medical, dental, and nurse services.

Instruction refers to activities dealing directly with the teaching of regular pupils either in the school classrooms or in any other location, including expenditure for cocurricular activities, the office of the principal, guidance and psychological services and school media service.

Maintenance of Plant refers to activities concerned with keeping the grounds, buildings and equipment in the original condition of efficiency or completeness either through repairs or replacement of property. Since expenditures for replacement equipment are a subobject within each category of expenditure, all replacement equipment has been removed from each category and reported within this category in Selected Financial Data.

Operation of Plant consists of keeping the physical plant open and ready for use, including cleaning, disinfecting, heating, moving furniture, caring for grounds, operating telephone switchboards, and other activities which are repeated regularly.

Special Education consists of activities designed for students who, through appropriate assessment, have been determined to have temporary or long-time special education needs arising from cognitive, emotional, and/or physical factors.

Student Personnel Services consists of attendance services, social work services or student account service which are designed to improve the student's attendance at school and prevent or solve student problems at home, the school, or in the community.

Student Transportation involves the conveyance of pupils to and from school activities as provided by state law, including trips between home and school or trips to school activities.

APPENDIX	
A	Enrollment in Maryland Public Schools: September 30, 1988 (Equated Enrollment (Col. 4) Used in Calculating Staffing Ratios in Table 1)

INTRODUCTION

The following tables were prepared from the Staff Reporting System, a computer database developed by the Maryland State Department of Education's (MSDE) Office of Management Information Systems (OMIS). Local Education Agencies in Maryland report these data to the OMIS on magnet tape in November of the current school year for staff members who are active as of October 15. Staff are further reported in the category in which they are budgeted in accordance with the Financial Reporting Manual for Maryland Public Schools. Hourly and contractual employees are excluded from the report.

The tables include the full-time equivalent (FTE) number of staff who are employed in the instructional and noninstructional functions at the local level. Table 1 presents the ratio of the number of instructional staff per 1,000 students in grades prek-12 including school level administrators. A new table (1A) has been added this year which presents the ratio of total enrollment to the number of principals and assistants, teachers and noninstructional staff. The ratios are calculated on the basis of September 30 enrollment which has been equated (see Appendix A).

We are indebted to personnel in local education agencies who make this report possible by submitting complete and accurate data in a timely manner.

APPENDIX	
A	Enrollment in Maryland Public Schools: September 30, 1988 (Equated Enrollment (Col. 4) Used in Calculating Staffing Ratios in Table 1)

INTRODUCTION

The following tables were prepared from the Staff Reporting System, a computer database developed by the Maryland State Department of Education's (MSDE) Office of Management Information Systems (OMIS). Local Education Agencies in Maryland report these data to the OMIS on magnet tape in November of the current school year for staff members who are active as of October 15. Staff are further reported in the category in which they are budgeted in accordance with the Financial Reporting Manual for Maryland Public Schools. Hourly and contractual employees are excluded from the report.

The tables include the full-time equivalent (FTE) number of staff who are employed in the instructional and noninstructional functions at the local level. Table 1 presents the ratio of the number of instructional staff per 1,000 students in grades prek-12 including school level administrators. A new table (1A) has been added this year which presents the ratio of total enrollment to the number of principals and assistants, teachers and noninstructional staff. The ratios are calculated on the basis of September 30 enrollment which has been equated (see Appendix A).

We are indebted to personnel in local education agencies who make this report possible by submitting complete and accurate data in a timely manner.

13	Local Appropriations for Public Schools as a Percent of Assessed Valuation, Net Taxable Income and Total Wealth, Maryland Public Schools: 1987 - 88

INTRODUCTION

Selected Financial Data is prepared annually from information reported by each of the 24 Maryland local education agencies (LEAs) in the Annual Financial Reports (AFR). These reports, authorized under the Education Volume of the Annotated Code, Section 2-205, Section 5-109 and Bylaw 13A.02.01.03, dictate a uniform format for reporting LEA finances to the Maryland State Department of Education. The Financial Reporting Manual for Maryland Public Schools contains the full chart of accounts developed to facilitate conformance to both state and federal reporting requirements.

FINANCIAL REPORTING IN BRIEF

LEAs are legal entities which exist to operate schools or contract for educational services. In Maryland, these school units are coterminous with the boundary of the political subdivision; i.e., the 23 county governments and the Baltimore City government. These school systems have no taxing powers and must compete with other county or city agencies for funds (appropriations).

Maryland law requires fund accounting, or the segregation of resources by purpose. Each fund consists of a self-balancing set of accounts for which revenue may be obtained from federal, state, local, or other sources. It is important to note that federal revenue is recognized as it is spent or encumbered not as it is received; and, therefore, is not equal to the appropriation. Following are a list of the funds and a brief description of each:

(1) The Current Expense Fund contains all accounts for general, routine current operations. Expenditures are charged to 12 categories, some of which are further subdivided to provide sufficient detail to meet federal and state reporting requirements.

The Current Expense Fund is composed of all expenditures from sources of money which are unrestricted for use, such as local appropriations and most state aid and expenditures which are restricted for use, such as federal programs and some state aid. Additional information about federal fund expenditures can be found in a release entitled Federal Program Expenditures Report, annually published by the Maryland State Department of Education.

(2) All transactions relating to major school construction or remodeling are accounted for in the School Construction Fund as follows: purchase of sites, site improvements, building additions, remodeling, additional equipment, and other construction expenditures.

(3) The Debt Service Fund accounts for the systematic repayment of principal and interest on debt. Although Maryland LEA's do not have the authority to issue bonds for school construction and the county government performs the debt servicing functions, LEA's must disclose this information on the Annual Financial Report.

(4) The Food Service Fund accounts for operations required to provide meals to students and staff in schools; i.e., operating kitchen equipment, preparing and serving food, cleaning and storing equipment, and delivery services.

(5) The Student Activities Fund accounts for funds which are owned, operated, and managed by the student body under the guidance of the LEA staff, e.g., extracurricular activities, school stores, etc.

(6) The Trust/Agency Fund accounts for assets for which the LEA is trustee or agent.

DEFINITIONS

Assessed Property Valuation is the valuation of property as determined by the State Department of Assessments and Taxation.

Average Daily Attendance is computed by dividing the sum of the days present of all students in the school system by the total number of days that schools are in session in a given school year. When cost per pupil data are based on ADA, kindergarten students who attend for only one-half day are counted as one-half student. ADA so adjusted is referred to as equated ADA.

Average Number Belonging is computed by dividing the sum of the days present and absent of all pupils in the school system by the total number of days that the schools were in session. When cost per pupil data are based on ANB, kindergarten pupils are counted one-half when they attend school for only one-half day.

Bonded Debt is the part of the local unit debt which is covered by outstanding bonds.

Debt Service refers to expenditures for the debt principal and interest, excluding principal and interest on current loans. Obligations incurred by the State of Maryland for construction of public schools are excluded.

Federal Funds are funds received from the federal government either directly or indirectly (as is the case with most monies which are given to the Maryland State Department of Education and distributed to the LEAs by any of several methods.)

Fixed Assets are land, buildings, machinery, furniture, and other equipment which the local unit intends to hold for an extended period.

Food Services are activities involved with the preparation and serving of regular and incidental meals for school activities and the delivery of food.

Fund is an independent accounting entity with its own assets, liabilities and fund balances, and is established to account for financing specific activities of an agency's operations.

Local Appropriation is money received out of funds set aside by the County Commissioners or County/City Council for a special purpose, such as education.

Local Education Agency (LEA) is the basic administrative unit which exists primarily to operate schools. In Maryland, the LEAs coincide with the political subdivisions i.e., the 23 counties and Baltimore City.

Revenue means an addition to an asset which does not increase any liability, does not represent the recovery of an expenditure, does not represent the cancellation or decrease in assets, and does not represent contribution of fund capital in Food Service and Student Body Activity funds.

Professional Staff by Assignment, Race and Sex

Maryland Public Schools

October, 1988

Maryland State Department of Education
Office of Management Information Systems
200 West Baltimore Street
Baltimore, MD 21201

OMIS 04110 (R)104-04/89

INTRODUCTION

This report presents the distribution of professional staff employed in Maryland public schools by assignment, race/ethnic categories and sex. The tables show the number and percent of males and females in the central office and at elementary , secondary, and middle/combined schools. The staff are further reported by the following race categories: White, Black and Others (Asian/Pacific Islander, American Indian/Alaskan Native, Hispanic).

On the whole, females outnumber males by 2 to 1 in Maryland school systems as Figure 1 illustrates. White females represent 54.5 percent of the educators in Maryland while minority females represent 17.6 percent. Together, they make up over 72 percent of the total professional staff. In contrast, minority males who make up 4.4 percent of the total professional staff, are the least represented among Maryland educators. Figure 2 illustrates the distribution of central office staff and clearly shows that males dominate the central office positions. White males represent 47.5 percent while the percent of minority males in the central office (8.6%) is almost twice as large as their percentage in the total work force (4.4%).

At the school level, nearly one-fourth of all the principals are minorities. However, principals of secondary schools are predominantly white males (82.8%). At elementary schools, the position of principal tends to be evenly distributed between males (50.3%) and females (49.7%). Other school level positions such as teachers, librarians, guidance counselors, and school psychologists are mostly held by females.

The data presented in this report were extracted from the Staff Reporting database maintained by the Office of Management Information Systems. Local education agencies in the state report this information in November of the current school year for staff who are actively employed as of October 15. Staff members are counted in the assignment where the majority of their time is spent.

Introduction

1 Federal Program Expenditures Summary by Category: Maryland Public Schools: 1987-88

2 Federal Program Expenditures for Maryland Public Schools: 1987-88

3 Adult Basic Education Restricted Expenditures for Public Schools: 1987-88

4 Chapter II Restricted Expenditures for Public Schools: 1987-88

5 1987-88 Chapter 1 Expenditures for Public Schools in Maryland

6 Education for Economic Security Act Restricted Expenditures for Public Schools: 1987-88

7 Education for the Handicapped Restricted Expenditures for Public Schools: 1987-88

8 Job Training Partnership Act Restricted Expenditures for Public Schools: 1987-88

9 Vocational Education Restricted Expenditures for Public Schools: 1987-88

10 Federal Program Expenditures per Pupil Belonging in Maryland Public Schools: 1987-88

11 Federal Revenue Trends by Program, Maryland Public Schools: 1987-88

12 Revenue Received vs Revenue Needed to Maintain 1981 Level of Support: Maryland Public Schools: 1981 - 1987

13 Federal Revenue Expressed in Actual and Constant Dollars for Maryland Public Schools: 1980-81 - 1987-88

INTRODUCTION

FEDERAL educational funding has decreased significantly over the past years. In 1977, Maryland schools received more than 8 1/2% of the cost of education from federal sources. This level remained stable until 1982 when funds fell sharply and federal support accounted for only 6.4% of the total education budget. By 1988 federal support had decreased to 5%.

MARYLAND school systems are required to report annual expenditures for grants on a by-grant basis. For any particular federal program, multiple grants may be made to an individual school system. Grant conditions restrict the use to a predetermined budget for which expenditure authority is granted. Generally, the Maryland State Department of Education maintains administrative responsibility for assuring that the funds are expended in accordance with the grant provisions.

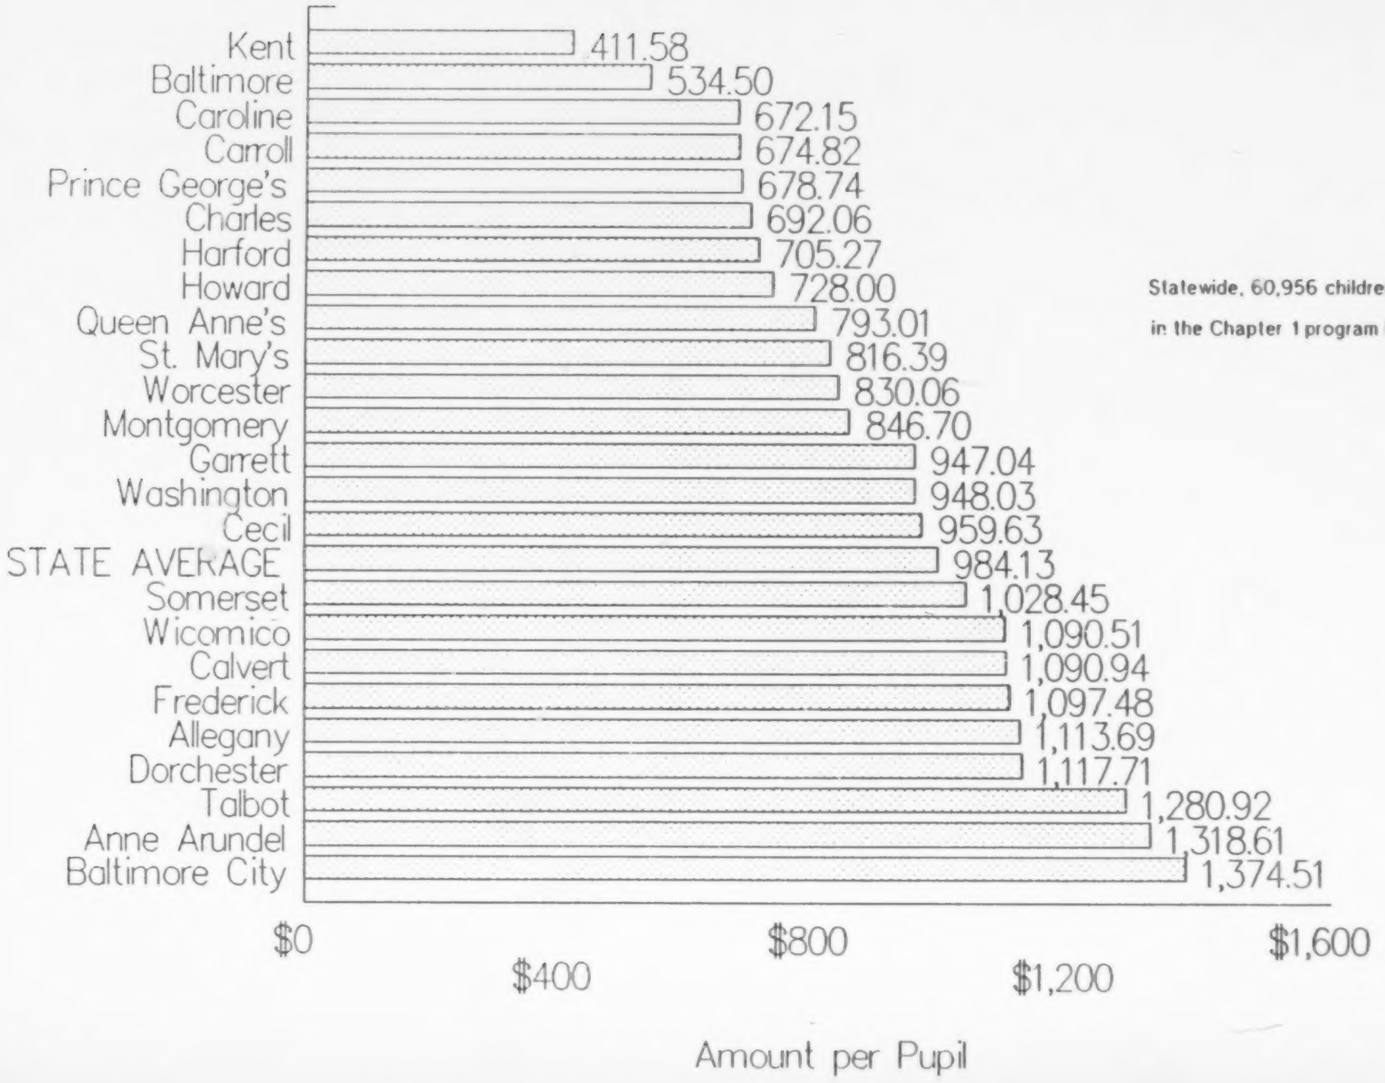
TABLE 1-10 display the summary expenditures by lea for the various federal programs as reported in the FY 88 Annual Financial Reports. In general, the format follows the budget categories defined by State law. However, Maryland law specific a fixed charges category. Since federal data collection and reporting accounts for fixed charges as an object of expenditure within a major category, e.g. instruction, these tables follow that format and all fixed charges are included within the category for which the fixed charge (retirement, social security, workmen's compensation) was incurred.

TABLE 11-13 reveal that although federal funding has increase since 1982, it has not yet reached the dollar amount provided in 1981. When adjusted for inflation, federal revenue is well below the 1981 support for education, total support for education, has exceeded the rate of inflation since 1985.

For additional information, contact the Statistics & Reports Section of the Office of Management Information Systems.

Chapter 1 Revenue per Program Participant

Maryland Public Schools: -1987-88



Statewide, 60,956 children participated in the Chapter 1 program in 1987-88

CHARACTERISTICS OF PROFESSIONAL STAFF
EMPLOYED IN MARYLAND PUBLIC SCHOOLS

OCTOBER, 1988

MARYLAND STATE DEPARTMENT OF EDUCATION
OFFICE OF MANAGEMENT INFORMATION SYSTEMS
200 W. BALTIMORE ST. BALTIMORE, MD 21201

OMIS-04110-(R)103-7/89

INTRODUCTION

The following tables present the characteristics of professional staff employed in Maryland public schools as of October, 1988. The data were obtained from two sources: employment records provided to the Office of Management Information Systems from local education agencies in Maryland and teacher certification records maintained by the Division of Certification and Accreditation.

Tables 1a through 1h present the number and percent of staff by the highest type of degree held. Tables 2a through 2h present the number and percent of staff by the total years of teaching experience. Tables 3a through 3h present the number and percent of staff by the type of certificate currently held.

Characteristics of new hires are shown on separate tables throughout the report. Persons who transferred between local education agencies in Maryland are excluded from the total new hire count for the state, but are included in the count of new hires for the local education agency.

Included in this report are principals and assistants, teachers, librarians, guidance counselors and psychologists who are employed on a regular contract. Substitutes and hourly employees are excluded.

INTRODUCTION

This report is an analysis of salaries of full-time professional staff employed in Maryland Public Schools. The tables present the average and median salaries, as well as the salaries at the first and third quartiles within each group. Table 1 presents state totals for each position type included in the report. Table 1a shows the average salary for each local school system and the state averages for each position type. Also provided on this table is an "average instructional salary" which includes all positions in the instructional function from principals to psychologists. Figure 1 is a graph of average salaries for classroom teachers by local education agency. Tables 2 through 25 present averages, median, first and third quartile salaries for each local school system by position type.

The average salary, computed by dividing the total salaries by the number of cases, is the "average salary" provided in previous reports and most frequently used for comparison. However, since this figure is affected by extreme values at either the lower or upper end of the range of salaries in the group, the median has been provided as another means of estimating the "average" salary. The median is the salary which divides the group in half where 50 percent of the salaries fall above and 50 percent fall below the median salary.

The salaries at the first and third quartiles show the salary level which divides the bottom 25 percent of the salaries and the top 25 percent. The salaries at these quartiles show the range of the middle 50 percent of the salaries in the group. For example, on Table 1, statewide the average salary of all instructional positions is $35,072. One fourth of the salaries fall below $29,083 (salary at the 1st quartile) and one fourth of the salaries are above $40,098 (salary at the 3rd quartile). Fifty percent of the salaries fall within the range of these two salaries.

The study uses actual annual salaries for individuals reported in the Staff Reporting System including stipends for extra duty or extended contracts. The data were reported by local education agencies in Maryland based on the payroll period closest to October 15, 1988 for staff actively employed in the 1988-89 school year.

1989–90 Professional Salary Schedules in Maryland Public School Systems

Maryland State Department of Education
Statistics and Reports Section
200 West Baltimore Street
Baltimore, MD 21201

OMIS 04110 (R) 10/89

Introduction

Funding the 24 school systems in Maryland is the joint responsibility of the state and the 24 local governments on which the school systems are dependent. Due to significant differences in wealth, size, philosophy, and urbanicity, salaries for comparable positions reveal wide variation. On the whole, Maryland teachers are among the highest compensated teachers in the nation, as evidenced by the National Education Association ranking of 9th in average salary for 1988-89.

Recent years have born witness to an increase in public support for education. Recognition of the need to increase teachers' pay has resulted in an average increase of over 48% in the starting salary for teachers from the fall of 1985 to the fall of 1989 and an estimated increase of 9% in average salary over the previous school year. This increase has rippled through the scales to experienced teachers thereby restoring to them some of the purchasing power that was lost over the last decade.

As a condition of employment, teachers and administrators must obtain valid certification from the State Superintendent of Schools. In addition to meeting minimum educational requirements, teaching applicants must pass several tests in the National Teacher Examination (NTE) series to qualify for a Standard Professional Certificate. An Advanced Professional Certificate is available after 3 years of successful teaching experience for teachers who have met minimum educational requirements.

The following tables were approved for public release by the local boards of education. For information regarding availability of positions in local school systems, please contact the personnel offices in the individual systems.

Table 5

Basis of 1989-90 Salaries for Principals in Maryland Public School Systems

Local Unit	Salary Minimum	 Maximum	Salary Determinants
Allegany	$39,242 -	$54,363	Base salary determined by level of education, school size, and length of contract, with longevity after 20 and 25 years of experience
Anne Arundel	N/A	N/A	Base salary determined by level of school/size plus longevity
Baltimore City	43,963 -	66,639	Salary schedule based on responsibility
Baltimore	38,048	64,725	Twelve month teacher salary plus 6 step responsibility factors ranging from $4,207-$8,546, depending upon school size
Calvert	41,654 -	68,797	Base salary determined by degree type and years of experience multiplied by factor of 1.40-1.55 depending on school size
Caroline	41,134 -	56,901	Base salary multiplied by factor of 1.35-1.45 plus increments for years of experience, level of education and longevity
Carroll	37,690 -	69,767	Salary schedule based on size of school plus differentials for advanced preparation and longevity
Cecil	38,285 -	59,072	Salary schedule based on size of school plus differentials for advanced preparation and longevity
Charles	44,251 -	56,389	Salary determined by longevity, performance, and school system needs
Dorchester	43,342 -	53,597	Base salary times factor of 1.1-1.16 determined by size of school, plus differentials for years of experience and advanced preparation
Frederick	36,922 -	62,856	Salary schedule based on school level
Garrett	31,486 -	56,278	Salary schedule based on length of contract and school size plus differentials for advanced preparation and longevity
Harford	34,981 -	59,312	Teacher salary times 1.2 plus differentials of $2,611-$7,632 based on school size/level
Howard	40,674 -	71,574	Teacher (MA) salary schedule times factor of 1.35-1.50 plus differentials for advanced preparation
Kent	*39,634 -	58,683	Salary schedule based on school size/level plus differentials for advanced preparation

NOTE: Salaries shown are for 12-month positions unless otherwise indicated

* 11-month position

Table 5 (cont.)

Basis of 1989-90 Salaries for Principals in Maryland Public School Systems

Local Unit	Salary Minimum	Salary Maximum	Salary Determinants
Montgomery	56,431 -	76,830	Salary schedule based on school type/level
Prince George's	52,000 -	72,000	Salary determined by level of education and size of staff
Queen Anne's	47,500 -	60,910	Base salary times factor of 1.25 to 1.47 based on school size and years of experience
St. Mary's	36,312 -	62,720	Salary schedule based on school level plus differentials for advanced preparation and longevity
Somerset	32,725 -	45,325	Teacher salary times factor of 1.1-1.2 determined by school level plus differentials of $2,175-$4,525 depending on school size
Talbot	43,620 -	*55,080	Salary schedule based on school assignment plus increments for advanced preparation
Washington	40,539 -	55,013	Salary schedule based on school assignment plus differentials for advanced preparation
Wicomico	43,600 -	56,050	Salary schedule based on school size
Worcester	37,884 -	60,544	Teachers salary equated to 12 months times factor of 1.13-1.25 based on school size/level plus longevity

NOTE: Salaries shown are for 12-month positions

* Merit pay may increase maximum by up to 9%

Table 6

Basis of 1989-90 Salaries for Vice Principals in Maryland Public School Systems

Local Unit	Salary Minimum	 Maximum	Salary Determinants
Allegany	$30,470	$43,750	Base salary determined by level of education and school size/level, plus longevity
Anne Arundel	N/A	N/A	Base salary determined by school/size plus longevity
Baltimore City	40,661	51,749	Salary schedule
Baltimore	34,463	60,677	Twelve month teacher salary plus 6 step responsibility factors ranging from $2,139-$4,498, depending upon school type
Calvert	34,483	59,920	Base salary determined by degree type and years of experience multiplied by factor of 1.225-1.35, depending on school level
Caroline	38,128	50,343	Base salary multiplied by factors of 1.15-1.25 plus increments for years of experience, level of education and longevity
Carroll	35,792	61,975	Salary schedule plus differential for advanced preparation and longevity
Cecil	34,392	51,285	Salary schedule based on school level and months of employment plus differentials for advanced preparation and longevity
Charles	37,318	41,073	Salary determined by longevity, performance, and school system needs
Dorchester	35,812	44,812	Base salary times factor of 1.08 plus differential for school level
Frederick	33,896	55,275	Salary schedule based on school level
Garrett	31,486	42,867	Salary based on length of service as administrator plus differentials for advanced preparation and longevity
Harford	35,282	54,994	Teacher salary times 1.2 plus differentials of $2,109-$3,314 determined by teaching responsibilities and school level
Howard	31,937	63,256	Teacher (MA) salary schedule times factor of 1.06-1.32 determined by months of contracts and school size
Kent	36,308	48,591	Salary schedule based on school type plus differentials for advanced preparation

Table 6 (cont.)

Basis of 1989-90 Salaries for Vice Principals in Maryland Public School Systems

Local Unit	Salary Minimum	 Maximum	Salary Determinants
Montgomery	49,158 -	62,531	Salary schedule based on type of school/school level
Prince George's	44,000 -	61,250	Eleven or twelve month teacher salary plus differentials
Queen Anne's	39,900 -	51,410	Base salary times factor of 1.00-1.22 based on classification
St. Mary's	31,323 -	51,829	Salary schedule based on school level plus differentials for advanced preparation and longevity
Somerset	27,215 -	38,240	Teacher salary times factor of 1.05 plus differentials of $1,640-$2,540 based on school size
Talbot	42,000 -	*50,040	Salary schedule plus increments for advanced preparation
Washington	35,115 -	48,585	Salary schedule based on school level plus differentials for advanced preparation
Wicomico	36,000 -	45,500	Salary schedule based on months of contract
Worcester	35,537 -	53,518	Teacher salary weighted to number of months worked times factor of 1.06-1.10 based on school level

* Merit pay may increase maximum by up to 9%

Table 7

Basis of 1989-90 Salaries for Instructional Supervisors in Maryland Public School Systems

Local Unit	Salary		Salary Determinants
	Minimum	Maximum	
Allegany	$41,590 -	$53,174	Base salary determined by level of education plus longevity
Anne Arundel*	N/A	N/A	Regular salary plus longevity
Baltimore City**	36,912 -	46,977	Salary schedule
Baltimore	38,048	62,231	Twelve month teacher salary plus 6 step responsibility factors ranging from $4,207-$6,052
Calvert	41,654 -	62,139	Base salary determined by degree type and years of experience multiplied by factor of 1.4
Caroline	42,637 -	55,262	Base salary times factor of 1.4 plus increments for years of experience, level of education and longevity
Carroll	41,513 -	64,028	Salary schedule plus differentials for advanced preparation and longevity
Cecil	43,152 -	56,152	Salary schedule plus differentials for advanced preparation and longevity
Charles	41,047 -	47,080	Salary determined by longevity, performance, and school system needs for advanced preparation and longevity
Dorchester	45,597 -	53,597	Base salary times factor of 1.16 plus differentials for advanced preparation and years of experience
Frederick	36,922 -	55,275	Salary schedule plus differential for Doctor's Degree
Garrett	43,485 -	54,867	Salary schedule plus differentials for advanced preparation and longevity
Harford	37,391 -	56,701	Teacher salary equated to 12 months plus $5,021
Howard	36,456 -	67,415	Teacher (MA) salary schedule times factor of 1.21-1.41
Kent	45,383 -	56,063	Salary schedule plus differentials for advanced preparation
Montgomery	49,158 -	67,975	Salary schedule; grade determined by area of responsibility
Prince George's	50,000 -	63,000	Twelve month teacher salary plus differentials
Queen Anne's	50,160 -	59,770	Base salary times factor of 1.32-1.44 determined by classification
St. Mary's	36,312 -	51,829	Salary schedule plus differentials for advanced preparation and longevity
Somerset	33,925 -	45,325	Teacher salary times factor of 1.2 plus $4,525
Talbot*	47,040 -	#53,820	Salary schedule plus increments for advanced preparation
Washington	42,760 -	50,580	Salary schedule plus increments for advanced preparation
Wicomico	46,300 -	53,500	Salary schedule
Worcester	39,560 -	57,265	Teacher salary weighted to number of months worked times 1.18 plus longevity

* Coordinator

** Specialist

# Merit rating may increase pay by up to 9%
